Corrigendum

Corrigendum to “To evaluate the treatment response of locally advanced esophageal cancer after preoperative chemoradiotherapy by FDG-PET/CT scan” [J Chin Med Assoc 78 (2015) 229–234]

Jing-Wen Huang a, Hui-Ling Yeh a,*, Chung-Ping Hsu b, Yu-Yu Lu c, Cheng-Yen Chuang b, Jin-Ching Lin a, Jai-Fu Lin a, Chen-Fa Chang a

c Division of Nuclear Medicine, Taichung Veterans General Hospital, Taichung, Taiwan, ROC

In this study, FDG-PET/CT scan was performed prior to any treatment and 3 weeks after preoperative CRT. Thus, all of the terms “preop-CRT” and “postop-CRT” used in the description of the timing to perform FDG-PET/CT scan and the calculation of delta SUV value should be changed to “pre-CRT” and “post-CRT”, respectively.

The authors apologize for these errors.
